The London Quarterly Review
The Edinburgh Review,

Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs they stand far in advance of any works of a similar stamp now published while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig Tory and Radical—'Blackwood' and the 'London Quarterly are Tory, the 'Edinburgh Review' Whig and the 'Westminster,' Radical The 'Foreign Quarterly' is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader

Dr. S. O Richardson's
CONCENTRATED
Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with he singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds, Irregular Appetite Languor Drowsiness Wandering Pains Heads he Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles Fevers, Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

SPECIAL NOTICE.

In consequence of the passage of an act by the recent Legislature of Maine, unjustly requiring the publication of the recipes of all proprietary medicines, after the first of January next, the public would do well to PURCHASE IMMEDIATELY AN AMPLE SUPPLY of the above celebrated medicine, as it MAY NOT BE LONG that the opportunity will be afforded in the State of Maine—The sinister intentions of designing men will thus for a time be defeated The medicine if kept dry, will be good for years That act we pronounce most *unjust,* because it requires a valuable secret to be put into the hands of one's *professional enemies* This no one will do, and thus the poor man will be compelled to pay for the visits of a doctor instead of doctoring himself, as he now does at a small expense!

An Anti-Slavery Paper in Washington.

It has been in contemplation for several months to establish in the city of Washington, a National Anti Slavery paper which may be regarded as the organ of the Anti Slavery people of the nation In order permanently to establish such a press, a fund of $5,000 has been raised in different parts of the country as a voluntary contribution to be given to the publisher to enable him to sustain the burden of publication at its first commencement

The paper is to be placed under the direction of Dr G Baily, of Cincinnati, editor of the Morning Herald, who will issue the paper in his own name on the first of December 1846 John G Whittier, of Mass, and Rev Amos A Phelps, of New York, consent to act as assistant editors—the former at the head of the Literary Department, and the latter at the head of the Theological Department

A large list of subscribers have already been procured in the Western States and efforts will be made in other States

It is feared by some, that physical resistance may be attempted for the suppression of this paper This would be a piece of great foolhardiness and would tend to increase greatly the Anti-Slavery sentiment of the country

☞The Boston Mail after stating the fact that the coast of Mexico is blockaded by our squadron and that three successful armies are passing into that country while the people seem, if anything to be growing more determined and courageous remarks, that "there is then, nothing that an eye, weary of the havoc of war, can look upon in prospect in pleasure It looks like a war of hopeless duration We may overrun large portions of Mexico, we may take her strong towns, batter down her citadels, and dictate terms of submission to her military chiefs But will she, even then, be conquered? Can we *occupy* all that we can *overrun*? We fear not It will take all of the 50,000 men authorized by Congress, to occupy a line of posts from Matamoras to San Luis Potosi, from Guanaxato to San Blas on the Pacific The most populous portions of Mexico will still remain untouched — The great valley of Tezcuco which embraces the capital, the rich departments of Puebla, Valladolid, Oxaca, Vera Cruz, &c will still remain unconquered, and it will take all of 50,000 men to conquer and *occupy* them Not less than 100,000 men will be require to subjugate and *occupy* Mexico, and preserve our sway against her robber hordes But we are in for the war, and cannot back out without dishonor The only hope is that Mexico will come to her senses, and propose such terms of peace as our government can accept"!

☞Mr Whipple delivered his second lecture before the Lyceum in this city on Thursday evening His subject was "Authors in their relation to Life, and it was treated with great ability, and made intensely interesting to a large and intelligent audience

The influence which authors have exercised on the world of letters, here thought must ever bear rule, was stated with great force They were likened to pillars of fire in the night of time

The lecturer proceeded to discuss the relation of authors to their age, to the public, to the booksellers and to domestic life

We took no notes, intending to enjoy the lecture, rather than make preparation for giving a sketch of it It was a highly pleasing lecture happily calculated to elevate the profession of the author, abounding in elevating sentiments and in useful suggestions not only to authors but to the reading public

The two lectures delivered here by Mr Whipple, even if our people knew nothing more of him, are sufficient to establish his reputation as among the first of popular lecturers, and as an elegant writer

A sketch of this lecture will appear in our columns on Monday

Plurality of Wives in New Mexico.

It appears that the men, and even the priests in New Mexico are permitted to marry not only one wife, but as many as they please A correspondent of the government paper at St Louis (the Union,) writing from General Kearney's Camp, Sept 13th, describes the town of San Domingo, of which he says —

"There is in this town, quite an *extensive* church to which is attached the priest's house where he keeps his wives or concubines The priest at this place has four—two of them are quite good looking"

No wonder the members of "The Society of Jesus" were anxious to get into our army as chaplains, to aid in bringing the Mexicans back to the faith Unfortunately, however, General Kearney has no chaplains with him, but in their stead he has *five hundred Mormons*, each of whom by the rules of the Mormon Elders, may take as many wives as he pleases

☞The Editor of the Skowhegan Clarion makes a grave charge in his paper which we feel bound to demand of him to substantiate or retract The charge is that it is the natural station and habitude of those entertaining anti slavery sentiments to pray for the poor slaves, and at the same time *permit white women to starve and die within a stone's throw of their own dwellings* We think this to be a base and scoundrelly falsehood, for which the editor, Mr Littlefield, has no just reason or decent excuse, and for which he justly deserves to stand branded as a foul defamer

They have been growing in Georgia, a plot of California rye, from seed sent from that country, said to surpass any grain of that kind ever planted One eighth of an acre in Talliefero county produced thirty six bushels The heads are immensely large, and so heavy that it is necessary to sow the seeds very thick When the growth is thin, the stalks are protracted by the weight of the ears When sown thick, they support each other

The most important discovery of the day—certainly the most important to this country—is the adaptation of the uplands of the old cotton growing States, to the cultivation of Mastadow cotton, a new species of the plant which commands about double the price of the unprofitable short staple cotton hitherto produced on the high lands of the cotton region

COURT COURIER.

Supreme Judicial Court

The case of Ezra Canney whose trial for the murder of Mrs Emerson commenced on Tuesday last was last evening committed to the Jury on a charge from Tenney J The Jury, after an absence of about 5 hours, at half past 10 o'clock returned a verdict of "guilty of murder in the second degree"

A Report of the case we shall publish soon

Gratifying Feature of the Times.

G de Felisse, the able European correspondent of the N Y Observer, for many years, in speaking of the wonderful change in public sentiment respecting religion within a few years, says —

"Thirty years ago,—twenty, ten years ago, religion seemed almost forgotten in the higher walks of political life Statesmen did not mention it, or only disdainfully Infidels said proudly,—'All is over with Christianity, we are looking for better and more useful things' Now, what a change' Wherever we turn our eyes, religion appears erect, with elevated front, attracting the attention of nations, and exerting an important influence in the destinies of the world We may hence derive a useful lesson, namely, that religious faith is always necessary to individuals and to nations Perhaps in times of revolution or war, men may imagine they can dispense with religion But wait a little, let the public fever be allayed, let the smoke of the battle field be scattered give to man leisure to reflect on himself and he will find in his heart those sacred instincts which God does not allow to perish

Awful Hurricane at Havana

By the way of Bermuda we have accounts of the awful effects at Havana, by the gale of the 10th and 11th ult Only four vessels rode out the gale in safety Nineteen American ships, barques, brigs and schooners were sunk or ashore, also 16 British merchantmen, 33 Spanish, 2 Russian, 2 Bremen, 4 French men of war, and the French frigate Andronick of 60 guns, and the French corvette Blonde of 20 guns, were wrecked

One account states that there were 104, and another 116 vessels in the harbor, of which only 12 escaped being wrecked, sunk, or driven ashore

It is not known how many lives were lost, but bodies were seen floating in the harbor in the different dresses of seamen in the merchant and naval service

The greater part of the Coffee crop has perished, and almost all the plantation trees have been rooted up, and fields of rice destroyed, whereby much suffering will be occasioned, and imports of provisions from abroad will be required to a great extent

The Boston Journal states that the intelligence of these disasters had an effect upon the price of lumber in that market

☞Dr Samuel G Howe, of Boston, has been nominated as a candidate for Congress, in place of Mr Sumner, who declined serving — It is a little curious that he being *the* representative of the purely anti war party, should weave a sentence like the following into his letter accepting the nomination —

"You want a man to stand and be shot at—to fall in a ditch that others may march over it — Well, if no better man can be found, you may make use of Your friend,

S G HOWE"

☞On the day of the election in New York city one of the locofoco keepers of Blackwell's Island was in the city of New York having in charge twelve or fifteen convicts for the purpose of having them vote in the various districts They were arrested in season to prevent their labor of love in pipe-laying for the party

☞The editor of the "Democratic Clarion," published at Skowhegan, states that the glory of the American arms in the recent brilliant victories achieved by them in Mexico, can only be eclipsed by "*the justice of the cause for which the war was instituted*"

That is just the one step beyond the sublime—the out and out ridiculous

☞The noble Steamer Governor takes her departure from our city, for the last time during the season, on Monday next, to run upon the Sound in place of the Oregon The Charter Oak, Capt Byram, will supply the place of the Governor, here, during the remainder of the season

☞The Oxford Democrat declares that the Democratic party "by no means believe the people as yet are very wise, very intelligent or very virtuous"

☞Counterfeit—$10s, Mechanicks Bank, Concord, N H The counterfeit is spelt Mechanic, but in the genuine, Mechanicks

☞Counterfeit one dollar bills, Atlantic bank, Boston, poorly executed—bills of different shades—are in circulation

☞Hon Ebenezer Knowlton, of Montville, has been chosen member of the Board of Education in Waldo county

☞The governor of Kentucky has appointed Thursday, the 26th of November, to be observed as a day of Thanksgiving

Winter Gardens.

We notice that one person in the city who in the summer has a small neat garden, has within a few days introduced into it various pine, fir, hemlock, and cedar trees and shrubs and thus put it in winter dress The effect of these evergreen shrubs about his dwelling and along his flower borders and skirting his enclosures is exceedingly pleasant, while the expense is very trifling — Fifty cents or a dollar in money and a few hours time are all which need be required to put most of our city inclosures into an attractive winter dress, and giving them an appearance of taste and of comfort

The Horrors of War.

The following extracts go to make up a portion of the history of our times, while also they give a graphic picture of the horrors of War — We find these extracts collected in the columns of the New York Express, and lay them before our readers as matters of sober fact and worthy of grave and solid reflection

The first is from the Baltimore Patriot, and was written by a soldier of the Baltimore Battalion

MONTEREY, Sept 25th 1846

Many a gallant heart that beat high on the glorious 21st September has cold around and within the city of Monterey Honored be their memory The brave and chivalrous Col Watson, after making two different charges on the city, while again charging, fell mortally wounded with a musket ball passing through his neck and separating the jugular vein He never spoke, but died in three minutes, and has buried in a grave with officers of the army, 40 feet from the upper fort Orderly Truscott, whose place is *at my elbow* in line, had his head blown about 40 feet in the air by a 12 pound shot Robert Caples, another, was mortally wounded, I fear, in the groin—the ball was taken out at the back

An officer of the same Battalion writes

I deeply regret that Col Watson was not spared to enjoy the victory with us So hot was the battle, that we were unable to take the body of our lamented Colonel from the street, until nearly 48 hours had elapsed We buried him in a brick house within 400 yards of where he first made a charge with the Battalion A very singular circumstance occurred while the man was in the act of preparing the grave a ball came and took his head off, and instead of burying one, we had to have another dugo for the poor soldier Such is war

We have lost a number of men, but nothing appears so horrible to me as those men who have their arms and legs taken off I never before imagined what a battle field was—never thought it like this

You would not suppose that any one could live in this lane or street where we were fighting Three batteries were constantly playing upon us Muskets, rifles, and every weapon which could be brought to play was bearing upon us The lanes became so dense with dead men and horses, that we had to tread upon them in passing The Mexican Lancers, not satisfied with seeing the poor fellows lying wounded upon the ground, must revenge themselves by thrusting their lances into their bodies Many of these Lancers, however, in turn, were made to bite the dust

The slightest wound here, I might say, is worse than a mortal one, for the wound is soon filled with *worms*, and in spite of all the physicians can do, the wounds cannot be kept clear of them They abound in great abundance and of almost every imaginable species

I am heartily tired of Mexico, and but for the duty I owe my country, would be the bearer of this letter You can get nothing without great difficulty

I had for 7 odd wounded Mexicans placed under my charge by Col Stewart, night before last Miserable objects of compassion some of them are, and they and the stench of the dead lying around, the damp, the dirt and the want of food for almost eighteen hours, almost overcame me

Our fare here has been extremely bad The provisions which the Government allows to the soldiers are any thing but good Contracts are given to political men, and they put such trash upon our troops as negroes would not eat in the South—the pork is so fat that lean is considered a great rarity, flour and crackers without worms, are also scarce In fact the only thing reliishable I am able to get is corn, occasionally On the march through this country, I some times get hold of an old hen, and it seemed old enough to have been the mother of the chicken that crowed in the days of Hamlet's father

I have just been informed that one of the Ohio men who received a wound in the arm, and which I bound up with my handkerchief during the battle, was stabbed by one of the infernal Lancers, while resting himself in the chapparal whither he had gone to get out of the way of the shot

A letter from Capt C W Bullen, of the Kentucky Riflemen is published in the Louisville Journal We cut from it one or two passages

We had to march one mile and a half through the fire of four batteries which were stationed at the different points, and threw their shot in to our ranks a cross fire At the second fire I had one of my men wounded just by my side A twelve pound shot struck him on the thigh and tore a the flesh from the knee to the hip, but did not break the bone His name is Lewis Young * * It commenced raining just at sundown and we had to stand in the fort all night in the most violent rain and in mud — The mud in the fort in the morning was about knee deep We had nothing to eat There were three hundred men in that place who had stood up all night without a blanket to throw over their shoulders We found about fifty dead Mexicans in the fort, on whose bodies were some very good overcoats *I took a coat off of one of them and put it on myself and then took a seat on him* Capt Benj Stewart, of the Washington Blues, took *a seat on another Mexican body* The next morning about eleven o'clock, we were ordered back to camp Stewart and I laid down in a house to sleep, but the internal whelps sent us a messenger to leave, from a twelve pounder which had like to have finished us The ball struck the end of the house and covered us with rock and mortar and then, striking the other end of the house, tried to roll over us But it was too hot We left, not being very sleepy anyhow For forty eight hours we did not eat a mouthful except one piece of raw bacon It was raining so that we could not make a fire Our guns were wet, as were also most of our cartridges

A letter from Capt Harper, in the same Journal, says

"The slaughter has been great, and it will be sometime before the actual loss can be estimated I think it may be put down with safety at upwards of one thousand killed and wounded, counting on both sides Some have put it down at more than double that number It is said that on the 23d, Worth's division, which advanced near to the plaza by the evening of that day, killed upwards of four hundred of the enemy Yesterday, the prisoners were kept busy from morning until night, burying the dead which lay around the forts occupied by the Ohio and our regiments The stench from the dead bodies was intolerable, and I was glad when the regulars marched into the fort and relieved us

The Monterey correspondent of the Louisville Courier writes —

"We lay for nine long hours flat upon the ground, the balls whizzing a few feet over us — The fire of the enemy was very distressing on us at one time We got accidentally in range with their pieces, and their balls then passed immediately over us They made such music as I am not particularly anxious to hear again soon Our position was changed a little to the right where we were a good deal easier It is no fun, I assure you, to be shot at as a target, without the power of sending back You may judge how close the balls came to us when I tell you that one of the Kentucky Riflemen while lying down,' had the heel of his boot shot off His foot was bruised considerably — One of the Washington Blues had his foot injured also, which comprised the list of our accidents for the day It commenced raining about 4 o'clock and did not cease during the whole night It was quite cold and many of us had no blankets We were kept on the watch ground until 12 o'clock at night when the pieces were moved to camp—a distance of about two and a half miles—in a very heavy rain and deep mud We had nothing to eat all day, nothing to cook when we got to camp, and *no fire to cook it by* Our camp guard, because of an anticipated attack on the camp by the Mexican Lancers, had struck all the tents and packed the wagons with everything—blankets and all —making it impossible for us to get our blankets It was an exceedingly disagreeable night, but it was rather better than dodging twelve pounders

A Monterey correspondent of the Baltimore Sun furnishes the following

"This army has no confidence whatever in Gen Butler His charge (the second one) was *ill timed, injudicious* and *ineffectual*, and it was during this charge that the immense slaughter of our force, especially on the part of the Tennessee regiments, took place

It was made by the order of Gen, Butler, without orders from Gen Taylor and I firmly believe that we all would have shared the fate of our lamented Colonel, (Watson,) and been cut to pieces, had not Gen Taylor rode up under a most tremendous fire and ordered us to retire It was here that our beloved General had his horse shot However, and his escape was and is yet a miracle, for I think I may safely say that I saw the dust of fifty bullets fly round the hoofs of his horse Gen Butler had been wounded, and a soldier was tying a handkerchief around his leg when General Taylor rode up They had hard and high words, when General Taylor exclaimed, "Sir, I order you to retire" Gen T now turned full towards us, and in a firm, clear voice, which was heard by every man, ordered us to retreat to a cornfield near by

In one word, Butler has the unanimous consent of the volunteers to return to private life, and for one, I solemnly declare, that although I came here to serve during the war, I will apply for my discharge before I will ever consent to accompany a charge of bayonets, which shall be made under Major Gen Butler *I admit him to be a brave man, he led the division in person, and was wounded at its head*, but he lacks prudence, foresight, and other qualities necessary in a commander in chief I again repeat, that if our Government should attempt to supersede Gen. Taylor, and to appoint Gen Butler, in his stead, the army of occupation, at least the volunteer portion of it will be broken up

They, the volunteers, will never consent to serve under any other General *No*, not even under Twiggs or Worth, both of whom at Monterey gained immortal honors Taylor, or as we familiarly call him, "Old Zach," is the boy for us I ask you to be good enough, gentlemen, to let the government know the real sentiments of the volunteers in this matter

---

Dr Nott, President of the Union College was once upon a visit to a gentleman in Schenectady, with whom he had long held correspondence, but to whom he had never been introduced He knocked at the door, which the gentleman opened, when the doctor thus introduced himself

'I am Nott, from Schenectady

'You are *not* from Schenectady' well, where are you from then?

No man has a right to do as he pleases except when he pleases to do right

From personal intimate acquaintance with Dr D Jane, an experienced, successful practitioner of medicine I was prepared to appreciate the numerous testimonials in favor of his different medical preparations much more highly than the great majority of those which are extensively eulogized On trial of them in my own family and some of them personally, I have more than realized the most favorable anticipations They are what they professed to be—not quack medicines—but skilfully prepared antidotes for some of the most afflictive of human diseases I know that they are highly esteemed, and frequently prescribed, by some of the most respectable of the regular practitioners of medicine in this city and I claim here, and I do not hesitate to commend them as a valuable addition to our materia medica, and a safe as well as eminently useful remedy for the diseases RUFUS BABCOCK, D D

NOTICE.

☞The present limits are inadequate to accommodate my numerous retinue of customers On 1st of February next, I shall commence to erect a '*Stupendous Warehouse*,' sufficiently large to accommodate my friends and numerous customers. '*Large* as the present House is, it is not sufficiently *large*' '*Spacious* it is not sufficiently *spacious*' "*Brilliant* in appearance it is not sufficiently *brilliant*." This Gigantic House, *the Glory of Boston* is to come down, and a *Larger, more Spacious, and Brilliant Establishment* is to take its place These names have been applied to my establishment by those that are acquainted with the real character of Oak Hall — Such as *a Super or Mart*,' '*a Princely Warehouse*' '*a Vast Producer Area*,' '*a Matchless Establishment*, ' '*a Theatre of Unbounded Trade*,' '*a Stupendous Selection*' '*an Extensive Market*' '*a Triumphant Achievement*' '*a Sphere of Extraordinary Operations*' '*an Unapproachable Wonder*' Such names probably will apply to my new *constructure* when completed I might as well undertake to confine the vast ocean in the limits of our Pond on Boston Common, as to carry on my *large* trade within the walls of the present limits The public are aware that my triumphant statements are not overrated The trade at my extensive Ware-rooms may be compared to a large Monster, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements This Warehouse, erected in 1842 has stood unrivall'd in the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy vending operations So liberal a patronage must have a larger house for the unfettered movements of its enormous form —an establishment far surpassing the present one is absolutely necessary, and one is shortly to be erected, that will surprise and delight all interested in my welfare

New York Election.

THE STATES WEST!

A Whig Governor Chosen---Probably a Whig Legislature and Congressional Delegation.

"There's a good time coming Boys."

We have a mass of information from almost every part of the State of New York, which is perhaps sufficiently decisive of the general result There appears to be little reason to doubt that the Whigs have carried the election by a decisive majority throughout the State The particulars, however, are too inexact to be reported to much useful effect A great part of the returns received consist of telegraphic reports, which in general report the vote for Governor only

The Albany Argus of Wednesday morning says that "returns were received by midnight sufficient to indicate the result in the State — John Young the Whig candidate is undoubtedly elected It says that the extent of his majority cannot be stated, but it can scarcely be less than 5000 The probabilities, in the opinion of the Argus are that Lieut Gov Gardiner, the Loco candidate, is also elected

Messrs Young of the Whig ticket and Gardiner of the Loco ticket, were adopted by the anti rent party, and in the opinion of the Argus, the votes of that party turned the scale This does not appear to be certain from the present information There appears to be a large Whig gain in almost every part of the State, except the city of New York

The Albany Herald says

"We may safely say all is right once more, notwithstanding the tremendous efforts of our adversaries to elect Silas Wright and crush the true principles of government The Whigs have indeed achieved a glorious victory over the combined efforts of Locofocoism, and its other conductor *isms* by triumphantly electing JOHN YOUNG to the office of Governor of the empire State The returns by telegraph show so great an increase throughout the Northern and Southern towns and counties, that it appears beyond belief, and when we look at the majorities we are surprised at the utter weakness of the Locofoco party in this State

The Whigs may, with good reason, feel proud of the battle they have just won, and send greeting to their friends in Pennsylvania and Ohio the news of one of the greatest political triumphs on record They met and conquered the enemy, after a hard struggle, and they point to their redemption from the thraldom of the destructive policy of the present administration, with gratification and with rejoicing

The reported pluralities from some of the principal points are as follows

	Young	Wright	W gain	L gain
New York City	—	4786	—	—
Albany County	2700	—	2673	1440

The Senate has a majority of Loco, viz 18 of the 24, who hold their seats by virtue of elections made in former years—the whole Senate consisting of 32 members Of the eight now chosen, one from the Southern District is probably a Loco, and perhaps others

The 16 Loco candidates for the Assembly in New York city, are probably chosen, including the celebrated Mike Walsh The political character of the House is not ascertained, but it would seem probable from the majorities reported that it will be Whig

RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate Iron, Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire gauge GEO B MOREWOOD & CO
Nos 14 and 16 Beaver st, New York

TO MILL OWNERS.

THE undersigned would inform all those interested in Mills for the manufacture of Lumber that he is owner of the Patent Right for this State, of the celebrated

Stearn's Water-Wheel.

This wheel is now offered to the public with the fullest assurance that it is unsurpassed by any wheel now in use in this State

The peculiar form and construction of this wheel is such that it exerts the full power of the water runs with the least friction possible, combines great power and speed as well adapted for low heads and back water and is not liable to obstruction by drift stuff having but few (three to six) pictures

About fifty sets of these wheels are now running on the Penobscot waters and have been thoroughly tested It is now given up by the most skillful and experienced millwrights and millmen that they excel any wheel in use

These wheels are manufactured and for sale by FRANKLIN MUZZY & CO Bangor who are furnished with patterns for all the different sizes and are authorized to contract for the Right of use or Patent SAMUEL VEAZIE

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and Gentlemen of Bangor that she is prepared to receive applications for her services as teacher of the French language at Mr VALENTINE'S, on Hammond street

Mlle M flatters herself that a continued residence for some years at the celebrated establishment of the *Sacre Coeur*, at Paris where no other language than French was used either in hours of study or relaxation will be a sufficient guarantee for her of the possession of a *pure Parisian accent*

For her knowledge of the language skill in teaching, and success with pupils she invites an inspection of her references in Boston &c

As Mlle M has under consideration several eligible applications from other quarters she would be particularly obliged to those who may desire to avail themselves of her services in Bangor, if they would apply as early as possible She would be glad to be enabled to decide by the 10th proximo whether it is practicable for her to make permanent arrangements in Bangor

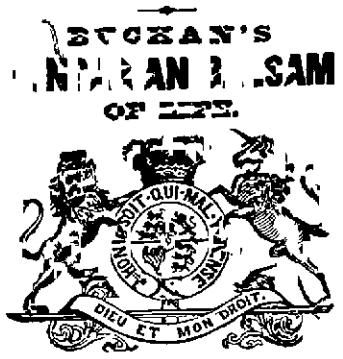
CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.



THE

GREAT EVIL SPECIFIC

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM is the Great English remedy for that fatal and Pulmonary disease, still so universally prevalent, and so unrepressed as the most of our generable, a Intellectual rival of these formidable complaints, now known to the civilized world

The 10 years of trial in the United States during which time it has extended from Maine to Florida has only served to establish its pre-eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the world cure of Pulmonary diseases and the last and best cure for all the modifications of colds, cough and inflammation, that can possibly be used

SPITTING OF BLOOD! This fearful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the lacerated membrane from which the blood issues, the cough is relieved, the night sweats, the hectic fever, and all the other symptoms of Consumption disappear by its use

REMEMBER THIS Spitting of Blood always arises from an ulcerated lung, and if not stopped in time will end in Consumption. Whenever you spit blood again, use the Balsam as a preventative and it will not return

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchitis, the effect on of the air passages of the lungs, rather caused by a very dangerous inflammation of the lungs. It prevents full and free breathing and varies in severity from a mere pain of the system. If not of the system, should be removed at once, and nothing can possibly effect the object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless to all the world

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen Pleura, and small intestines. On detecting Consumptive patients, Tubercles are often found in all these organs particularly upon the Liver which is so becomes fatty, oily and swelled The effect of the Hungarian Balsam in diseases of the Liver, especially if of the of an ulcerous nature, is direct and powerful *Simple disease of the Liver, unattended by Consumption is speedily cured by its use*

WINTER COUGH The harsh dry hacking winter cough which *afflicts old people*, and invariably in a low state of health is happily alleviated by the *Hungarian Balsam*.

It warms, moistens and stimulates the whole breathing apparatus, removes all mucus or other foul matter, purifies and invigorates the blood improves the secretive power of the Liver, Spleen and other large glands and the digestive organs, and imparts new life to the wan and emaciated system

BRONCHITIS Bronchitis, Difficulty of Breathing, Harsh Cough, scanty expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*.

This is a very painful wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted! and employ this valuable remedy

TUBERCLES OF THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no actual organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers, (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage changes it from a thick, glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA! Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *Shrinking of oe's self* The Hungarian Balsam by its cleansing warming, softening and animating power, produces, not shrinking but *expansion!*

Before its debilitating influence, all chills, fever night sweats costiveness hoarseness of the nails a hot flushed skin an unusual strength, emaciation and decline—disappear like the pearly dews of night before the glorious morning sun This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described be advised in time

Sold in large bottles at only one dollar per bottle

NOW TO THE TESTIMONY.

BRUISES however deep rooted and long standing must yield to simple, unadulterated statements of facts, like the following—Captain Thompson is well known in this city and in many parts of this State and his statements are highly important Read them

BANGOR, May 18 1846

I have been very severely afflicted with a distressing cough, attended with asthma For thirty years especially during the winter season for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit During the forepart of last winter I was much worse than usual—very much worn down with my cough and emaciated so that I was unable to attend to business I felt discouraged and began to conclude with my friends that my case was a hopeless one While in this situation a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city, saying he had made use of them in a case very similar and had been cured I had little or no confidence in any patent medicines having tried many and found no relief and objected sending for them for some time At the earnest solicitation of several who declared they had found relief from them I purchased a bottle of the Balsam and a box of the Pills Very soon after I commenced using them, was relieved from the distress at my lungs my cough became loose and I raised easy Soon after my cough began to disappear and in less than a month it was perfectly well My lungs now appear perfectly well, and have been so for months I believe the balsam and Pills SAVED MY LIFE I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough I do most cheerfully recommend it to the public, believing it *the best article in the world* for all lung complaints, asthma, &c JOHN THOMPSON

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York—Price 25 cents a single box, 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity, the oppressive sense of weariness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and cleanness Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Fetter Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most alarming cases of *scrofulous affections* They are *Good Blood for Bad* Bottles of the boasted Sarsaparilla contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache, Giddiness &c, they are recommended with entire confidence the relief is almost quick and permanent For Fever and Ague, Fevers Asthma Piles, Loss of Appetite Dropsy, Jaundice Worms, Looseness, General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character even *over doses* never cause griping or uneasiness yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents
